**“THE YOUTH OF TODAY ARE THE LEADERS
OF TOMORROW.”**

~ Nelson Mandela

Our Vision:

1. To close the gap between. Medical and economical sectors, the major requirement of the upcoming era to keep pace with the intellectual community.

- To introduce innovation in medicine and medicinal tools and techniques in Pakistan, via research publications in order to ensure that we provide standard healthcare that is upto the International mark.

Presidential Panel:

Pain today Pride tomorrow is the executive principle of success. Nothing in this world is impossible but with consistency, perseverance, and humbleness being the most important ones.

Every chapter of life contains good and bad in it and strangely, it has always been those unnerving moments that give birth to excellency.

For us, OHEC is the outcome of the motivation from such critical times and is heading it's way to revive dying spirits

and commands.
