RAWALPINDI MEDICAL UNIVERSITY

D.A Diploma In Anesthesiology

2 Year Programme

COURSE BACKGROUND

- ❖ **Anesthesia** first entered the public consciousness on October 16, 1846. That was when William T.G. Morton, an enterprising dentist, administered ether to a young man who needed a tumor removed from his neck. The surgery was a success, and the modern age of **anesthesia** was born.
- ❖ Over years anesthesia has evolved and gained tremendously in techniques, drugs used and recent advances but primary machine still remains to be anesthetist
- ❖ Being the backbone of every Operation Theatre, the constant need of a specialist anesthetist is rising every day and we need to produce quality trained persons

COURSE OVERVIEW

RMU is always the pioneer in improving the health care system in Pakistan and now it is taking an initiative to start one such type of program to bridge the huge gap between the demand and supply of quality anesthetists all across the county.

ELIGIBILITY

- Valid PMC certificate
