

RAWALPINDI MEDICAL UNIVERSITY

FIRST NATIONAL RESEARCH AND
INNOVATION EXPO'22

RENOVACON'22

MAIN CAMPUS, RMU, TIPU ROAD
21ST, 22ND OCTOBER

RENOVACON'22

The world is now a global village and it is the time to make research and innovation a top priority by the institutions of the country. It gives me great pleasure in seeing undergraduate students taking special interest in research.

*Prof Dr Muhammad Umar (S.I.)
Vice Chancellor RMU
Patron-in-Chief RCAP & RSRS*

It is indeed a need of the time to organize activities such as RENOVACON'22 to promote research and innovation. It is indeed heartening to see other medical colleges participating in the activity.

*Prof. Dr. Jahangir Sarwar Khan
Principal RMC
Patron-in-Charge RCAP*

Health research is the only cognitive solution to ever growing health issues. Medical students are future health scientists and are supposed to carry forward the health research legacy.

*Prof Dr Arshad Sabir
Dean of Community Medicine
Patron-in-Charge RSRS*

RENOVACON'22

The time will come when diligent research over long periods will bring to light things which now lie hidden. A single lifetime, even though entirely devoted to the sky, would not be enough for the investigation of so vast a subject.

*Dr. Afifa Kulsoom Assistant Professor
Community Medicine RMU
Chief Coordinator RSRS*

Where research is an intrinsic aspect of the idea development process, innovation is the practical application of research. This year, with RENOVACON'22, we aim to bring this inherent connection between the two to life.

*Dr. Omaira Asif
Assistant Director DME RMU
Founder President RCAP*

Health innovation improves the efficiency, effectiveness, quality, sustainability, safety and affordability of healthcare. Through the first RENOVACON'22, we aim to promote a culture of innovation among our medical students.

*Dr. Asif Maqsood Butt
Public Health and Innovation Specialist RMU
Founder RCAP*

RENOVACON'22

Research hub is a village, which should be industrialized, a culture which should be cultivated and a child which should be given appropriate parenting

Sajeel Saeed
President RSRS

RSRS intends to end this year on a high note with its first-ever RENOVACON, coalescing the scientific rigor of research with the ultramodern dimension of innovation; a perfect opportunity for the students to acclimatize themselves with the evolution of scientific literature

Ramesha Tahir
President RSRS

RCAP brings to you, the first-ever RENOVACON, an amalgam of Research to find obscure meanings and Innovation to challenge the eternally established norms of science. It is the perfect opportunity to both rejuvenate your latent sparks and bring forth the products of your brainstorming.

Saad Asif
President RCAP

It is an honor to be a part of the organizing committee for RENOVACON'22, whereby a platform is being provided to promote both research and innovation among healthcare professionals. We hope this endeavor will bring great advancements to the field.

Maheen Nazir
Director Innovation RCAP
